EDUCATION

Indian Institute of Information Technology (IIIT) - Kottayam August 2023 - Present
B.tech., Computer Science and Engineering with specialization in AI and Data Science, 4th Sem CGPA: 8.72

Sree Narayana Higher Secondary School (SNHSS) April 2022
Grade 12 | School topper Percentage: 98.4

St Thomas High School Punnayar (STHS) April 2020
Grade 10 | School topper Percentage: 99.3

PROJECTS

Spotify Clone – Music Streaming Web App | *React, Vite, Tailwind CSS, Git* April 2025

- Developed a responsive and visually appealing music streaming interface using React with Vite and Tailwind CSS.
- Implemented core UI features such as playlists, song cards, navigation, and player controls for a smooth user experience.
- Used Git for version control and collaboration, enhancing code management and deployment readiness.

MyHome E-Commerce Website | *HTML, JavaScript, CSS* May 2024

- Developed an e-commerce website named "MyHome" to sell home products.
- Implemented front-end features using HTML, JavaScript, and CSS to create a user-friendly shopping experience.
- Gained practical experience in web development and user interface design.

Casper - Chatbot Website | *HTML, CSS, JavaScript, Python, Flask* August 2024

- Implemented the front-end using HTML, CSS, and JavaScript to create an interactive and user-friendly interface.
- Utilized Python to host and manage the LLM, enabling advanced conversational capabilities.
- Gained practical experience in deploying and hosting machine learning models on a web platform.

Spam Mail Detection | *Pandas, scikit-learn, Python* July 2024

- Developed a machine learning model to detect spam emails.
- Utilized Python libraries such as Pandas and scikit-learn for data processing and model building.
- Implemented a Logistic Regression model for accurate spam classification.

ACHIEVEMENTS & AWARDS

- **Developed a portfolio website** as part of an academic project, demonstrating proficiency in web development technologies.
- Attained **8.58 SGPA** in the recent semester examinations, demonstrating consistent academic excellence.
- Successfully completed a drone workshop conducted by Space Chase, gaining practical skills in drone flying and manufacturing, endorsed with a certificate of completion
- Achieved **97.4 percentile score** in the Joint Entrance Examination 2023, showcasing strong academic performance and aptitude.
- **Ranked 1088 in the KEAM 2023** entrance examination, showing competence and competitiveness.
- Have strong foundation in **Data structures, DBMS and Operating System** concepts.

SKILLS

Programming Languages: C/C++, Python, Java, JavaScript, HTML, CSS, PHP, MySQL.

Technologies and Frameworks: React, Vite, Tailwind CSS, Pandas, Scikit-Learn, TensorFlow, Matplotlib, MIPS, Flask.

Developer Tools: VS Code, PyCharm, JupyterLab, Github, Git.

Skills: Competitive Programming, Data Structures and Algorithms, Web Development.

RELEVANT CERTIFICATIONS

- **The complete full-stack web development Bootcamp** (Udemy)
- Supervised Machine Learning: Regression and Classification (Coursera)
- Advanced Learning Algorithms (Coursera)
- Unsupervised Learning, Recommenders, Reinforcement Learning (Coursera)
- Python Libraries for Data Science (Simplilearn)
- Introduction to Data Science (Infosys Springboard)

LEADERSHIP / EXTRACURRICULAR

GDSC (Google Students Developer Club) | *Team Member*

October 2023 - Present

- Organized and Participated in Multiple Sessions of the Club taken by experts.

School Leader | *St. Thomas High School Punnayar*

2018-2020

- Became School leader in 10th Grade.
- Was a part of organizing multiple events for the school.

BSG India | *Sree Narayana Higher Secondary School*

2016-2022

- Achived Rajyapuraskar and served as Troop Leader in Bharath Scout and Guides.
